Lumino Technologies — Design System Handoff

For: Frontend Development
Scope: Typography, Color, Spacing
Source: Figma file "Lumino Technologies"

Fonts

Font	Used for	Availability
Tomato Grotesk	Display, Headings, Buttons	**Paid/premium font**. Requires a purchased desktop + webfont (WOFF2) license, self-hosted via `@font-face`. Don't try to pull this from a CDN.
Instrument Sans	Body, Inputs	Free — available on Google Fonts
Roboto Mono	Mono/code, table cells	Free — available on Google Fonts

Font weight name → CSS numeric mapping used throughout this doc:

Name	Numeric
Thin	100
Extra Light	200
Light	300
Regular	400
Medium	500
Semi Bold	600
Bold	700
Extra Bold	800

Black	900

1. Typography

Line-height rule: Headings = 120% (H3/H4/H5 = 130%, confirmed) • Body = 150%. Letter-spacing values below are Figma "%" units, which convert directly to CSS `em` (e.g. `5%` → `0.05em`).

Style Name	Font Family	Weight	Weight #	Size	Line Height	Letter Spacing	Text Case
Display/lg	Tomato Grotesk	Regular	400	96px	120%	-0.02em	Title Case
Display/md	Tomato Grotesk	Medium	500	74px	120%	-0.02em	Title Case
Heading/H1	Tomato Grotesk	Medium	500	48px	120%	0em	none
Heading/H2	Tomato Grotesk	Medium	500	36px	120%	0em	none
Heading/H3	Tomato Grotesk	Medium	500	30px	130%	0em	none
Heading/H4	Tomato Grotesk	Medium	500	24px	130%	0em	none
Heading/H5	Tomato Grotesk	Semi Bold	600	20px	130%	0em	none
Heading/H6	Tomato Grotesk	Semi Bold	600	16px	120%	0em	none
Body/xl	Instrument Sans	Regular	400	24px	150%	0em	none
Body/lg	Instrument Sans	Regular	400	20px	150%	0em	none
Body/md	Instrument Sans	Regular	400	18px	150%	0em	none

Body/sm	Instrument Sans	Regular	400	16px	150%	0em	none
Body/xs	Instrument Sans	Regular	400	14px	150%	0em	none

Captions, Buttons & Special Styles

These aren't strictly "headings" or "body," so line-heights below are pulled directly from real usage in your shipped components (more reliable than a blanket rule):

Style Name	Font Family	Weight	Weight #	Size	Line Height	Letter Spacing	Text Case
Captions and Buttons/caption	Instrument Sans	Medium	500	14px	150%	0em	none
Captions and Buttons/caption-Mobile	Instrument Sans	Medium	500	12px	150%	0em	none
Captions and Buttons/Button/lg	Tomato Grotesk	Medium	500	16px	100%	0.01em	UPPERCASE
Captions and Buttons/Button/md	Tomato Grotesk	Medium	500	16px	100%	0em	UPPERCASE
Captions and Buttons/Button/sm	Tomato Grotesk	Medium	500	16px	100%	0em	UPPERCASE
Special/Intro	Instrument Sans	Medium	500	24px	150%	0em	none
Special/hyperlink	Instrument Sans	Regular	400	20px	150%	0em	none
Special/Overline	Instrument Sans	Bold	700	12px	150%	0.05em	UPPERCASE
Special/mono/sm	Roboto Mono	Regular	400	16px	120%	0em	UPPERCASE
Special/mono/sm-mobile	Roboto Mono	Regular	400	12px	120%	0em	UPPERCASE

Special/mono/md	Roboto Mono	Regular	400	20px	120%	0em	UPPERCASE
Special/Input/label	Tomato Grotesk	Medium	500	14px	120%	0em	none
Special/Input/text	Instrument Sans	Regular	400	16px	100%	0em	none
Special/Input/help-text	Instrument Sans	Regular	400	12px	150%	0.02em	none

---

2. Color

Semantic Tokens (use these in code — not the raw palette)

Background

Token	Hex
`colors-background-page`	`#FFFFFF`
`colors-background-surface`	`#F1F5F9`
`colors-background-surface-alt`	`#E2E8F0`
`colors-background-primary`	`#0776C5`
`colors-background-primary-soft`	`#CCE9FD`
`colors-background-success`	`#10B981`
`colors-background-success-soft`	`#D1FAE5`
`colors-background-danger`	`#EF4444`
`colors-background-danger-soft`	`#FEE2E2`
`colors-background-warning`	`#F59E0B`
`colors-background-warning-soft`	`#FEF3C7`
`colors-background-info`	`#0EA5E9`
`colors-background-info-soft`	`#E0F2FE`

Text

Token	Hex
`colors-text-primary`	`#0F172A`
`colors-text-secondary`	`#475569`
`colors-text-tertiary`	`#64748B`
`colors-text-disabled`	`#94A3B8`
`colors-text-brand`	`#0662A4`
`colors-text-danger`	`#DC2626`
`colors-text-warning`	`#D97706`
`colors-text-success`	`#059669`
`colors-text-info`	`#0284C7`
`colors-text-inverse`	`#FFFFFF`
`colors-text-inverse-light`	`#94A3B8`

Border

Token	Hex
`colors-border-subtle`	`#E2E8F0`
`colors-border-default`	`#CBD5E1`
`colors-border-strong`	`#94A3B8`
`colors-border-focus`	`#0776C5`
`colors-border-success`	`#10B981`
`colors-border-warning`	`#F59E0B`
`colors-border-danger`	`#EF4444`
`colors-border-info`	`#0EA5E9`

State

Token	Value
`colors-state-hover-overlay`	`rgba(0,0,0,0.08)` (`#00000014`)
`colors-state-pressed-overlay`	`rgba(0,0,0,0.16)` (`#00000028`)
`colors-state-disabled-surface`	`#F1F5F9`
`colors-state-disabled-text`	`#94A3B8`
`colors-state-overlay-bg` (modal scrim)	`rgba(0,0,0,0.4)` (`#00000066`)

---

3. Spacing (Page Sections)

Breakpoint: Mobile rules below apply **below 768px**. (Reference mobile design width: 430px.)

The rule

The "gap" between stacked sections isn't a separate spacer as it's created by each section's own **top padding**. A section normally does **not** need bottom padding, because the next section's top padding provides the visual breathing room.

Exception: if a section has a **contrasting background** (a different fill than the sections around it), it needs **both top and bottom padding** otherwise it looks like it's cut off, since there's no next-section top-padding to create separation on its lower edge.

Desktop (⩾768px)

Property	Value
Side padding (left/right)	`80px`
Top padding (creates the inter-section gap)	`120px`
Bottom padding — normal section	`0px`
Bottom padding — **contrasting-background section**	`120px` (i.e. same as top)

Mobile (<768px)

Property	Value
Side padding (left/right)	`24px`

Top padding (creates the inter-section gap)	`64px`
Bottom padding — normal section	`0px`
Bottom padding — **contrasting-background section**	`64px` (i.e. same as top)

Dev note: "Contrasting section" = any section whose background color differs from the section immediately before/after it (e.g. a colored or dark band between two white sections). Check adjacent section fills when implementing, not just the section in isolation.
