About Me

Web & UI Designer with 5+ months of professional experience managing 3 concurrent design projects with senior-level responsibilities. Professional in Figma, responsive design, and cross-functional workflows. Ability to iterate rapidly on marketing experiments and deliver pixel-perfect designs.

CORE COMPETENCIES

UI

- Figma (Professional): Components, Auto-layout, Design Tokens, Prototyping, Dev Handoff
- Solid Understanding of White space , Composition, Typography, Color Theory
- Wireframing & Information Architecture
- Design Systems & Documentation
- Responsive Web Design & Grid Systems
- Accessibility & Inclusive Design

UX

- AI based UX Research
- UX writing
- Understanding how AI influences design and user experience
- WCAG compliance, inclusive design
- Understanding User-Behavioral Patterns (Thumb heatmaps, FZ patterns)

Soft-Skills

- Communication - Presenting and Satisfying Australian clients
- Collaboration - Working with teams across Time-Zones
- Problem-Solving- Translated A/B testing data into actionable design improvements
- Attention to Detail, Adaptability, Time Management
- Understanding the power of Feedback

Professional Experience

- September 2025- Present

Product Designer

EBPearls (Australian Tech Company)

- Managing 6-7 concurrent design projects
- Website & Landing Pages: Redesigned many Project's Landing pages for visual consistency and conversion optimization; designed pattern-based components; created hero sections with SEO best practices
- Design Systems: Built reusable component library with design tokens: reduced handoff time by 35-40%
- A/B Testing: Designed 3 test variations for rapid experimentation; iterated based on user feedback
- Creative Production: Office Event's Flex, Office Event's Props
- Project Coordination: Managed Collaboration via Zoom, CODA and JIRA; collaborated with marketing, product, and development teams

Impact: At EBPearls, I communicate directly with Australian clients, collaborate across teams, and design 100+ assets while progressing through Clients— proving I can handle new systems and grow rapidly

- April 2025- Sept 2025

UX/UI Designer

Freelance

- Created custom dashboard, CMS designs to help admin track products and manage content easily. I prioritized clear navigation and organized layouts, ensuring that even non-technical users could navigate the system and find the information they needed quickly.
